Information Disclosure Statement

1. The Information Disclosure Statement filed 01/26/2005 has been fully considered.

Kutlu (US 6,472,762 B1) is the closest reference of the Applicants' submitted prior art that teaches that the modulus of the die attachment 108 or a thermal interface material (see Fig. 6) may be greater than 100 MPa (see column 2, line 56), and a heat spreader attach 120 attaching the heat spreader 104' to the die surface of the packaging substrate having the modulus generally is less than 100 MPa (see column 4, lines 19-20), and it may be implemented as a low modulus material for example thermal grease, get, etc.. However, Kutlu fails to teach employing an adhesive having an adhesive modulus that is lower than or equal to 10 Mpa as the claimed invention.

2. Claims 1-13, and 26 are allowed.

The following is an examiner's statement of reasons for allowance: please see paragraph 1 above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
